Comparison of Selected Senate Earmark Reform Proposals

Summary

In response to reports of, and concern over, alleged irregularities in certain lobbying and representational activities, the Senate is considering various lobby and ethics reform proposals. Some have argued that the Senate should consider changes to the process by which the Senate earmarks spending priorities as a part of the larger focus on lobby and ethics reform.

Proposals to modify the earmark processes have been included in some Senate bills. On February 28, 2006, for example, the Senate Committee on Rules and Administration ordered reported S. 2349, Legislative Transparency and Accountability Act of 2006, which includes, in part, such proposed changes. In addition, provisions in both S. 2261 and S. 2265, sponsored by Senator Barack Obama and Senator John McCain, respectively, would also make changes in the earmark process.

This report provides a comparison of these three measures: S. 2349, S. 2261, and S. 2265 with the current Senate rules and practices.

This report will be updated to reflect any congressional action.

Comparison of Selected Senate Earmark Reform Proposals

Introduction

In response to reports of, and concern over, alleged irregularities in certain lobbying and representational activities, the Senate is considering various lobby and ethics reform proposals. Some have argued that the Senate should consider changes to the process by which the Senate earmarks spending priorities as a part of the larger focus on lobby and ethics reform.

Proposals to modify the earmark processes have been included in some Senate bills. On February 28, 2006, for example, the Senate Committee on Rules and Administration ordered reported S. 2349, Legislative Transparency and Accountability Act of 2006, which includes, in part, such proposed changes. In addition, provisions in both S. 2261 and S. 2265, sponsored by Senator Barack Obama and Senator John McCain, respectively, would also make changes in the earmark process.

This report provides a comparison of these three measures: S. 2349, S. 2261, and S. 2265 with the current Senate rules and practices.

Earmark Definition			
<p>(1) Currently, there is no formal definition of “earmark,” nor is their an informal definition accepted by all practitioners and observers of the federal budget process. Broadly, “earmark” may refer to provisions associated with legislation (appropriations or general legislation) that specify certain congressional spending priorities or in revenue bills that apply to a very limited number of individuals or entities. Earmarks may appear in either the legislative text or report language (committee reports accompanying reported bills and joint explanatory statement accompanying a conference report).</p>	<p>(1) A provision that specifies the identity of a non-federal entity to receive assistance (budget authority, contract authority, loan authority, other expenditures, tax expenditures, and other revenue items) and the amount of that assistance. (2) This definition would apply to any bill, including appropriation, authorization, and revenue bills. (Section 3 of S. 2349.)</p>	<p>(1) A provision that requires or permits the obligation or expenditure of any amount appropriated for the benefit of an identifiable person, program, project, entity, or jurisdiction by earmarking or other specification, whether by name or description, in a manner that: (a) discriminates against other persons, programs, projects, entities, or jurisdictions similarly situated that would be eligible, but for the requirement or permission, for the amount appropriated; or (b) applies only to a single identifiable person, program, project, entity, or jurisdiction, unless the identifiable person, program, project, entity, or jurisdiction is described or otherwise clearly identified in: (i) a law, treaty stipulation, or an Act or resolution previously passed by the Senate during the same session; or (ii) the President’s budget request</p>	<p>(1) Generally, an appropriation that is restricted or directed to, or authorized to be obligated or expended for the benefit of, an identifiable person, program, project, entity, or jurisdiction by earmarking or other specification, whether by name or description, in a manner that: (a) discriminates against other persons, programs, projects, entities, or jurisdictions similarly situated that would be eligible, but for the restriction, direction, or authorization, for the amount appropriated; or (b) is so restricted, directed, or authorized that it applies only to a single identifiable person, program, project, entity, or jurisdiction, unless the identifiable person, program, project, entity, or jurisdiction to which the restriction, direction, or authorization applies is described or otherwise clearly identified in:</p>

(2) This definition would apply to appropriations bills.^a (Section 2 of S. 2261 would add a new paragraph to Rule XVI, Appropriations and Amendments to General Appropriations Bills.)</p>	<p>(i) a law, treaty stipulation, or an Act or resolution previously passed by the Senate during the same session; or (ii) the President's budget request submitted in accordance with law. These documents must specifically provide for the restriction, direction, or authorization of appropriation for such person, program, project, entity, or jurisdiction. Prohibition Against Unauthorized Appropriations			
<p>(1) On a point of order made by any Senator, no amendment shall be received to any general appropriations bill the effect of which will be to increase an appropriation in the bill, or add a new appropriation that is unauthorized. Such funding is unauthorized, unless it is:</p> <p>(a) made to carry out the provisions of an existing law, treaty stipulation, or act or resolution previously passed by the Senate during the same session of Congress;</p> <p>(b) included in President’s budget requests submitted in accordance with law; or</p> <p>(c) moved by the Committee on Appropriations or a committee with legislative jurisdiction over the activity funded.</p> <p>Funding exceeding spending levels provided in the above documents are also considered unauthorized appropriations. Under current Senate precedents, the term ‘specifically authorized’ has no meaning distinct from ‘authorized.’ An appropriation in an appropriation bill</p>	<p>No changes.</p>	<p>No changes.</p>	<p>(1) On a point of order made by any Senator, no unauthorized appropriation may be included in any general appropriations bill (House-passed or Senate bill), or any accompanying amendment, conference report, or amendment between the Houses. (This would apply to the text of the House-passed bill and House amendments between the Houses.)</p> <p>(2) Unauthorized appropriation means an appropriation not:</p> <p>(a) specifically authorized by law, treaty stipulation, or act or resolution previously passed by the Senate during the same session of Congress; or</p> <p>(b) included in the President’s budget request submitted in accordance with law.</p> <p>The term unauthorized appropriation would also include the amount of the appropriation that exceeds the authorization (or budget request) level in the above documents.</p> <p>(3) The prohibition against unauthorized appropriations would also apply to</p>

The Presiding Officer may sustain the point of order against all or some of the provisions.</p> <p>For special procedures regarding enforcement of this prohibition on conference reports, see Conference Reports, Result of Sustaining Point of Order, below.</p> <p>(Section 2 of S. 2265 replaces paragraph 1 of Rule XVI, Appropriations and Amendments to General Appropriations Bills.)</p>

Existing Senate Rule (and precedents) or Public Law	S. 2349	S. 2261	S. 2265
Prohibition Against Legislation on a General Appropriations Bill			
<p>(1) The Committee on Appropriations shall not report a general appropriations bill containing amendments to such bill proposing new or general legislation. A point of order may be made against the bill, and if sustained, the bill shall be recommitted to the appropriations committee. A point of order may also be made against a committee amendment and, if sustained, only the amendment would fall. (Under paragraph 2 of Senate Rule XVI)</p> <p>(2) On a point of order made by any Senator, no amendment offered by any other Senator which proposes general legislation shall be received to any general appropriation bill, nor shall any amendment not germane or relevant to the subject matter contained in the bill be received. (Paragraph 4 of Senate Rule XVI.)</p> <p>(3) A Senate amendment between the Houses on a general appropriations bill is subject to the prohibition against legislation on a general appropriations bill. (Under Senate Rule XVI.)</p>			<p>In addition to existing Senate rule, bill would add the following:</p> <p>(1) On a point of order made by any Senator, no general appropriation bill (including House-passed bill or original Senate bill) or conference report on a general appropriation bill may include new or general legislation.</p> <p>(2) If point of order sustained: language would be stricken and a corresponding reduction in both the total amount of bill and Senate Committee on Appropriations 302(a) allocation of discretionary budgetary resources would be made.^a</p> <p>(3) Motion to waive or sustain an appeal of the Presiding Officer's ruling: affirmative vote of 3/5 of all Senators required.</p> <p>(4) The disposition of a point of order made under any Standing Rule of the Senate (including this one) that is not sustained, or is waived, does not preclude, or affect, a point of order made under this paragraph regarding the same matter.</p> <p>(5) Notwithstanding any other rule of the</p>

<p>(4) If the legislation included in an amendment might be germane to a provision(s) in the House-passed bill, a Senator may raise the germaneness defense. Then, the question of germaneness of the amendment shall be submitted to the Senate and decided without debate. If the Senate agrees, by majority vote, that the amendment is germane, the point of order against legislation on the amendment falls and the amendment may be considered. If the Senate disagrees, the amendment falls because the Senate does not consider it germane. (Under paragraphs 2 and 4 of Senate Rule XVI.) There is currently no waiver mechanism in the Senate standing rules.</p>			<p>Senate, a Senator may raise a single point of order that several provisions of a general appropriation bill or accompanying conference report or amendments between the Houses violate this paragraph. The Presiding Officer may sustain the point of order against all or some of the provisions. For special procedures regarding enforcement of this prohibition on conference reports, see Conference Reports, Result of Sustaining Point of Order, below. (Section 2 of S. 2265 replaces paragraph 1 of Rule XVI, Appropriations and Amendments to General Appropriations Bills.)</p>

Existing Senate Rule (and precedents) or Public Law	S. 2349	S. 2261	S. 2265
Germaneness Requirement			
<p>(1) Under existing rules and precedents, germaneness is a parliamentary prohibition against adding a new subject to a bill, therefore germaneness only applies to amendments.</p> <p>(2) There is no existing rule requiring earmarks offered as amendments to be germane to a bill.</p> <p>(3) More broadly, however, Rule XVI does require all committee amendments, as well as floor amendments, to a general appropriations bill to be germane. On a point of order made under Rule XVI, the question of germaneness of an amendment shall be submitted to the Senate and decided without debate, by majority vote.</p> <p>(4) Under cloture, depending on the procedural situation, certain committee amendments to appropriations bills may be required to be germane. In such cases, the Presiding Officer rules on germaneness. On appeal of the Presiding Officer's ruling, a majority vote, a quorum being present, is required to sustain the ruling. (Paragraph 2 of Rule XXII.)</p>		<p>(1) Prohibits consideration of an appropriation bill, unless all earmarks are germane to the bill.</p> <p>(2) Motion to waive: affirmative vote of 2/3 of all Senators required.</p> <p>(Section 2 of S. 2261 adds a new paragraph to Rule XVI.)^a</p>

Conference Reports			
<i>Layover Requirement</i>			
<p>There is no general layover requirement on conference reports. (1) The motion to proceed to consider a conference report is in order when copies of the conference report are available to each Senator. (Under paragraph 1 of Rule XXVIII, Conference Committees; Reports; Open Meetings.)</p>	<p>(1) Prohibits consideration of a conference report unless the report is made available on the Internet for at least 24 hours before its consideration. (Section 4 of S. 2349 adds a new paragraph to Rule XXVIII.) (2) Prohibits consideration of any Senate bill, Senate amendment, or conference report on such bill (including appropriations, revenue, and authorization bills), unless a list of all earmarks in such measure, identification of the Senator(s) proposing each earmark, and an explanation of the essential government purpose for the earmark are available on the Internet for at least 24 hours before consideration. (Section 3 of S. 2349 would add a new rule, Rule XLIV.)</p>		<p>(1) The motion to proceed to consider a conference report shall not be in order until after such report is filed and made available 48 hours prior to consideration of the motion. (Section 3 of S. 2265 adds a new paragraph to Rule XXVIII)</p>

<i>New Matter and Non-Germane Matter</i>			
<p>(1) Conferees shall not insert in their report matter not committed to them by either House. (Paragraph 2 of Rule XXVIII)</p> <p>(2) In any case in which a disagreement to an amendment in the nature of a substitute has been referred to conferees, it shall be in order for the conferees to report a substitute on the same subject matter; but they may not include in the report matter not committed to them by either House. They may, however, include in their report matter which is a germane modification of subjects in disagreement. (Paragraph 3 of Rule XXVIII.)</p>	<p>(1) A point of order may be made by any Senator against consideration of a conference report that includes any matter not committed to the conferees by either house. On a point of order by any Senator, no new matter or non-germane matter may be included in a conference report on a general appropriation bill. The result of sustaining this point of order is different from the result provided under Rule XXVIII, see comparison in next row. (Section 2 of S. 2265 replaces paragraph 1 of Rule XVI)</p>

Earmarks must be in bill (or Act)			
Earmarks may appear in either the legislative text or report language (committee reports accompanying reported bills and joint explanatory statement accompanying a conference report).	No changes.	Establishes new rule language and a supermajority-vote requirement to waive. (1) Prohibits consideration of an appropriation bill, unless all earmarks are contained in the text of the bill and not incorporated by reference or directed in the committee report. (2) Motion to waive: affirmative vote of 2/3 of all Senators required. (Section 2 of S. 2261 adds a new paragraph to Rule XVI.) ^a	Prohibits federal agencies from obligating funds for appropriation earmarks included only in congressional reports. (1) Prohibits any federal agency from obligating any funds made available in an appropriation act to implement an earmark included in reports filed by the House and Senate Committees on Appropriations or joint explanatory statement, unless the earmark is also included in the appropriation act. (2) For purposes of this provision, earmark is defined as a provision that specifies the identity of an entity (which includes a state or locality, but not any federal agency) to receive a grant, loan, loan guarantee, or contract and the amount involved. (3) This provision applies to appropriation acts enacted after December 31, 2006. (Section 4 of S. 2265, note different earmark definition under this section than under section 2, see top cell.)

- a. This provision would amend Senate Rule XVI. The existing requirements under Rule XVI apply only to general appropriations bills, not all appropriations bills. In the Senate, general appropriations bills are appropriations bills providing funds for more than a single purpose or agency, such as the annual regular appropriations bills, most supplemental measures, and continuing resolutions. There are also special appropriations bills that provide funds for a single purpose or agency.
- b. In addition, S. 2265 would prohibit any points of order under the Congressional Budget Act of 1974 (2 U.S.C. 621 et seq.) against the striking of matter, the modification of total amounts of the bill, or reduction of the Senate Appropriations Committee’s 302(a) allocation in discretionary budgetary resources provided under section 2 of S. 2265
